# *WANT TO BE AN ACTOR*

**Ever wanted to be an actor, well here is a few things you should know.**

## **Top 7 Advantages of being an Actor**

- 1.You win fame and national love and you become recognized on the streets.
- 2.Films are shot not only in your country so you will be able to see other countries.
- 3.The profession of an actor plays a special role in the formation of the future generation, its education and development.
- 4.You will be able to constantly rotate in the circle of creative people, each of whom are unique and are of inimitable personality.
- 5.You will have your own fans and maybe even a fan club.
- 6.The whole world might know about you and your income can be on a high level.
- 7.You live the life of another person while playing your part.

## **Top 6 Disadvantages of being an Actor**

- 1.Extreme Criticism: One wrong decision and you will be trending for the wrong reasons.
- 2.Need to be politically correct: Every word that actors say can be quoted in any situation and hence they need to be extra careful what they speak about.
- 3.Constant Media Attack.
- 4.Pretentious life: You always need to look nice even when you don't want. The pretense of keeping up to this fake lifestyle takes a toll on their peace of mind.
- 5.Forced to face Judgment: Actors are judged for their every action mostly in a bad way.
6. Crazy Fans: Some fans become creepy stalkers, some go to the media with fake news about actors.

# WHAT IS A VET?

The term veterinarian comes from the Latin word "*veterinae*" which means 'working with animals'. Dogs are the most popular animals to show up on their veterinary exam table.

## Qualities needed by vet

Veterinarians should be understanding, patient and concerned for animals and their owners. They must inspire confidence in their clients. They often need to be good team players with strong leadership qualities. They should preferably not have any allergies to animals.

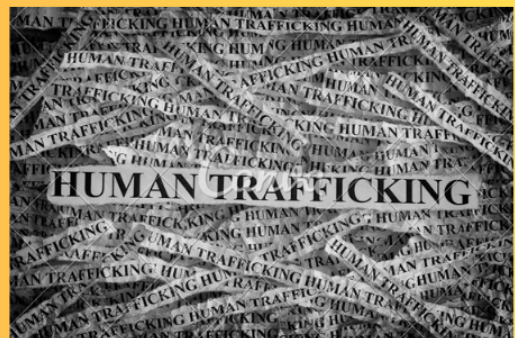

# PLEA TO THE PRESIDENT

Dear Mr. President

My plea to you Sir is that you ensure that pressure is put on the police to be more alert and enthusiastic about handling every crime related situation faced in the country. Human trafficking is one of my biggest concerns and it needs to come to an end.

Human violation by gangsters must be dealt with mercilessly, by giving them a very long jail sentence. The raping of woman and children should also not be undermined, we need a voice. I ask that more community related activities are introduced by the government to reduce and prevent substance abuse and gang activity from a young age. Can you please stop human trafficking and the killings of children of this country.

## *Vernon*

# PLEA TO THE PRESIDENT

Dear Mr. President

We may be kids but we can still create an impact against bullying. Although there is a pandemic, bullying is still an issue and has not stopped. Many kids report being bullied by other classmates or even strangers on the internet. The sad part is that not only do kids get bullied but so do adults.

The different ways people get bullied are cyber, verbal, physical, emotional etc. I ask we inform parents and ask them to check up on their kids "DAILY" and they should ensure that their children are happy and feel safe and make sure their children know that they are not alone and have support.

# PLEA TO THE PRESIDENT

**Dear Mr. President**

Teachers should take bullying a bit more seriously. According to studies, 9% of children commit suicide due to bullying, a child might be bullied at school and teachers would just tell the bully to apologize and not take any further measures to control the situation. We all know sorry isn't an action but just a word, which means that the bully would still carry on. The teacher or the person that knows about the incident should report the bully straight away because that could really save someone's life. Another thing is to make sure that teachers talk to each and every child (offer therapy sessions) because you never know what's going on in children's lives and their mental states. We should have boot-camps, where bullies go and learn about discipline, respect and how to treat other people properly the way they deserve to be treated.

Another reason why people get bullied is because they are fortunate and privileged and the bully isn't... For example; they live in big houses, with luxurious cars and a luxurious lifestyle with loving families and they get attention, so some children who don't come from such families are affected and become bullies.

So I urge you Mr President to make sure that our teachers should by all means ensure kids never get bullied or at least introduce methods that will prevent and control the situation.

*Thotho*

# PLEA TO THE PRESIDENT

Dear Mr. President

My plea to you Sir is simple, I would like to see Change.

Change in employment, as the youth of this country, we aspire to be doctors, teachers, lawyers, accountants but our aspirations are being demotivated by the increasing unemployment rate especially amongst the youth, how are we supposed to have such great aspiration with the future looking less promising everyday.

I would like to see change in the education systems, especially in government schools, can we not provide private schools quality of teaching to government schools. Not every child will get the opportunity to study at a private school, but every child deserves the opportunity to quality education. While on the topic of government institutes, something has to be done about the quality of public hospitals and clinics. The state in which these institutes are, is saddening. Something has to be done Mr President.

As a whole, we need more government services like: Police Stations, Clinics, Fire Stations and safety Homes for the less privileged and orphans, this will also combat the issue of unemployment.
