# PLEA TO THE PRESIDENT

**Dear Mr. President**

Abuse has been one of my biggest concern, therefore I decided to get involved in trying to help tackle it. I strongly believe that sports is a very vital activity and keeps our peers out of the streets and out of mischievous actions or behavior. Over the years I have achieved several awards through activities mentioned above hence I decided to choose one of them to join those who are putting up a fight against abuse. I started #Kar.Attacking Abuse to produce and sell products with a symbol and messages that will help to raise abuse awareness, my aim is to later take a portion of the proceeds and establish recreational facilities with various sports activities, preferably aiming at previously disadvantaged communities.

Mr. President I won't be able to do that anytime soon because It wouldn't be easy for me to raise money and build many recreational facilities and take as many children as I can out of the streets. I am asking you to help me to help them establish their identity within the context of goal settings. Education is very important however goals can have a huge impact on an individual's entire existence. I am not sure what they mean when they say life begins at 40, all I now is it's never too early to learn that you can achieve everything you want and you are never too young to lead, to teach and to start leaving your dream.

Mr. President for our next generation to be better than today's generation, we need to start now to set the foundation for success.

I have a plan Mr. President, please hear me out.

**Instagram-@queenblack\_7**

# PLEA TO THE PRESIDENT

**Dear Mr. President**

As a 15 year old living in South Africa, never had I ever imagined that we could go through such a pandemic that has hit the whole world. Sure, I have heard about the 1918 Flu Pandemic and I have read about it but with our advance technology, I would have never imagined that we would go through something as drastic as that.

Covid-19 has had a drastic impact on a lot of factors and has altered our lives completely. Our economy's recession resulted in retrenchments and millions of job losses. We were already going through a difficult time with the ever-increasing unemployment rate before this global pandemic but now its worse.

My request to you Mr President is that you find a way to intervene on Private sectors and eradicate retrenchments, also cut down ridiculous salaries earned by some officials to fix dysfunctional schools in townships and rural areas. Because your learners are your future leaders.
