# PLEA TO THE PRESIDENT

Dear Mr President.

The purpose of this plea is to state the issues faced in South Africa. I feel like South Africa needs more governmental attention.

I understand that you're trying to make this country a better place but there is a lot of homeless people who don't have jobs and so I have a solution to that. In certain places across the country, there are buildings which are not in use. My proposal is that those buildings be turned into homes and in that process find a way to provide the children with education or available jobs for the adults.

The reason why I say we should re-use abandoned buildings is because land is scarce so if we continue using up more of it, there will only be humane activity and no animals.

Mr Ramaphosa we appreciate your leadership and decision making.

We are counting on you to make South Africa a wonderful place. Most of us are willing to contribute to the development of our country together, by making it stronger and a happy place to live in. When one does good I hope the rest will follow within the same path.

*Oratile*

# PLEA TO THE PRESIDENT

Dear Mr President.

I would like to make a plea for there to be swimming facilities at unprivileged towns/areas to teach young under privileged kids to swim.

My mom used to be a police diver and there are so many children that do not have the opportunity to learn how to swim. Once they get in contact with water, they panic and drown.

It is very sad seeing that South Africa is a sunny country and swimming or playing in water is a great form of entertainment for kids. I believe that this will decrease the number of children water related fatalities in our country.
